

## Police Raid

Dear Brothers and Sisters,

The Public Security No. 1 Section of the Tokyo Metropolitan Police Department forced through police raid on Nov. 10, when Doro-Chiba members inclusive of the president TANAKA were joining in the KCTU's massive rally in Seoul, against the headquarters of Doro-Chiba faking up "obstructing officers from performing their duty" in the Nov. 2 International Workers' Solidarity Rally and demonstration.

About 60 plainclothes policemen came to raid for 2.5 hours and outrageously seized even the material related to Doro-Chiba's regular convention.

We utterly impeach state power for its unforgivable oppression against militant labor unions.

In Solidarity

International Labor Solidarity Committee of Doro-Chiba
