

Fédération des syndicats de travailleurs du rail
Solidaires, Unitaires et Démocratiques

Dear Comrades,

The rail workers unions federation SUD-rail would like to send you its support to the employees from Opel in Bochum, actually on strike ! We do know your difficult situation and hope you're going to obtain the cancelling of the 4.000 dismissals all together with the cancelling of General Motors project about 12.000 dismissals in Europe. We support you when you're rejecting to lose 30% of each salary to keep your job. This is such a nonsense proposal.

Just as you have the support of your family and from Bochum' citizens , we will make it known to French rail workers.

We know that you're going to organize a General Assembly of the workers on strike on Monday, 20 October. Let us have the information about the decision you're going to follow.

Once again, be certain that our federation will support Opel employees on strike to keep their jobs !

For SUD-rail federation,
Emmanuelle Bigot
Christian Mahieux
